Technical Review Board's June 9, 2026, Spring 2026 Meeting in the Order that the
Comments Were Submitted**

Name: Oleg Povetko

Affiliation: US EPA

Comment: Which numerical regulatory standard is the most challenging to comply with in the entire process?

Name: Carlyn Greene

Affiliation: UxC, LLC

Comment: For Korad, which sites currently use dry storage, and will all sites implement dry storage to bridge the gap between current storage capacity and the availability of the consolidated interim storage facility?

Name: Tony Leshinskie

Affiliation: State of Vermont (Public Service Department)

Comment: Question for Ms. Pastina (Finland): have you had any indications from your regulatory agency on whether your final operational license will be granted this year, or are they likely to postpone the final approval date again?

Name: John Buchser

Affiliation: Sierra Club

Comment: Thank you for presenting a diversity of other countries experiences with HLW and LLW disposal. Very useful in understanding how the US might proceed.
