

U.S. Department of Energy
Office of Civilian Radioactive Waste Management

Project Plans for Fiscal Year 2002-2003 Performance Assessment and Design

Presented to:

Nuclear Waste Technical Review Board

Presented by:

Nancy Williams

Manager of Projects

Bechtel SAIC Company, LLC.

May 8, 2002

Washington, D.C.

License Application Planning Overview

- **Overall planning goal is to submit a License Application (LA) by December 2004**
- **Three general work areas: Performance Assessment (PA), Repository Design and LA**
- **Greatest challenge: Refinement of PA scope (includes testing, modeling, and analysis)**
 - **Emphasis on a sound technical basis for the LA**
 - **Organizational changes to improve integration**

License Application Planning Overview

(Continued)

- **Repository design will be refined from the Site Recommendation (SR) for operational needs and level of detail for the Nuclear Regulatory Commission (NRC) Licensing**
- **LA Development will include coordination of the NRC's Yucca Mountain Review Plan, Key Technical Issue agreements and ongoing scientific investigations**

Manager of Projects
Nancy Williams
Russ Fray, Deputy

Project Oversight Board
