

Board Consultant Letter Reports on the *Final Report of the Igneous Consequences Peer Review Panel*

On February 26, 2003, the Department of Energy–supported Yucca Mountain Igneous Consequences Peer Review Panel met in public session to present its *Final Report*. Attached are letter reports from Board consultants Dr. Derek Elsworth (Pennsylvania State University), Dr. William Melson (Smithsonian Institution), and Dr. Meghan Morrissey (Colorado School of Mines) on the *Final Report* and the Panel meeting. Also attached is an Appendix by Dr. William Melson on *Strombolian Eruptions and Scoria Cones In Reference to Volcanic Consequence Analysis at Yucca Mountain*. Consultant reports do not necessarily represent the views of the Nuclear Waste Technical Review Board.
