Dear Dr. Cantlon:

In reference to a joint oversight hearing held by the House Subcommittees on Energy and Power and Energy and Mineral Resources, I would like to submit the enclosed question for your response.

If you have questions regarding this issue please contact Tom Thornton of my staff. I would appreciate your prompt consideration of this matter.

Sincerely, .

QUESTION FOR NWTRB

Q. It has been suggested that the Department of Energy should postpone work on the Yucca Mountain site characterization pending a comprehensive review of the high-level waste program. Wouldn't this simply further delay the program in Nevada?
